Re: Testimonial

We have been using Antigo on our Provincial Government contracts and on our airport contracts for over a decade. Antigo provides a quality service with qualified staff who work hard to ensure our projects get completed on time and on budget. Antigo's method of rubblizing concrete provides a quality subbase for roadways and reduces the cost of removing concrete pavements. Both the office and field staff are knowledgeable and easy to work with. I would highly recommend Antigo Construction for your concrete breaking and or rubblizing needs.

Sincerely,
